**MCA (Master of Computer Application)**  
Jain University-online Bengaluru,  
Karnataka

## Expertise

React	<div></div>
NextJs	<div></div>
React Native	<div></div>
Nodejs/ MongoDB.	<div></div>
Firebase/Hostingr	<div></div>
UI/UX, Bootstrap/ HTML/CSS	<div></div>
Tailwind CSS	<div></div>

## Experience

2023

Dvij Infotech LLP

**Software Developer**

**Revision Crome extension- React Typescript** - ReVision, an AI-powered software, has been further enhanced in this revision of the Chrome extension. It now includes additional features in the revision tool, allowing for real-time bias detection. With this extension, you can easily access the ReVision prompt directly from the extension window. Moreover, it seamlessly integrates with Gmail, enhancing the overall writing experience.

Our tech stack includes -React TypeScript, openAI , Plasmio- a browser extension

**NopCommerce - Next js** - Our team is fully committed to revolutionizing NopCommerce, the premier ASP.NET Core shopping cart designed on Microsoft technologies, by transforming it into a headless commerce solution. To achieve this, we are harnessing the capabilities of Next.js to develop a distinct front-end implementation that seamlessly integrates with NopCommerce

Our tech stack includes - Next.js , nopecommerce, Nop-Tech ,Redux, Antd

2022-2023

Dvij Infotech LLP

**Software Developer**

**Post Protect - admin dashboard React js**- This is an ordered protection site that I created using React JS. In this site, I utilize a JWT-decode token for authentication, integrate APIs using Redux Toolkit, and utilize the Ant Design (Antd) package for the user interface. The functionality of this site enables you to protect your product, process returns, and obtain refunds for damaged products.

Our tech stack includes - React.js, Redux , Antd

**Crickfiz - cricket live score** - cricket application is a platform built with React.js and React Native that provides a range of functionalities for cricket enthusiasts. In this application, users can access live scores for all international cricket matches, stay updated with live news, and also view upcoming matches and schedules. Experience the excitement of real-time cricket updates and stay informed about the cricket.

Our tech stack includes - React Native, React.js, Redux, and javascript

**TalkHomio** - TalkHomio is a platform built with React.js and React Native, providing users with the ability to search for doctors, make appointments, and access free online consultations. We have incorporated various features into the system

Our tech stack includes - React Native, React.js, Redux, and javascript

2021 - 2022

Theplanetsoft

**App Developer**

**ShopSM- React Native for Web** -I am employed as a frontend developer at ShopSM, an e-commerce website. Our e-commerce platform is constructed using React Native for the web, which enables us to leverage native DOM APIs for implementing distinctive and innovative features.

Our tech stack includes - React Native, Native Base, Node.js, and TypeScript.

**DGS app- React Native** I am employed as a frontend developer at DGS (Divorced Girl Smiling), a divorce website and application. The purpose of DGS is to empower, connect, and inspire users through its collection of articles and resources, catering specifically to individuals going through a divorce.

Our tech stack includes - React Native, Native Base, and Node.js.

## ACADEMIC PROJECTS

**EVS point** -Developed EVS point, a mobile application and web-based admin dashboard using React Native and React respectively, to facilitate the seamless integration of charging points for electric vehicles.  
[Tech Stack : React + React native + Nodejs + MongoDB]

## STRENGTHS

Analytical skills  
Leadership skills  
Ability to work in a team  
Quick Learning Ability  
Multi-tasking
